Reddy Hema Sri Asritha

Data Analyst | Python | SQL | Power BI | Excel | Data Analytics

+91-9492078858 | asrithahemasri@gmail.com | LinkedIn | GitHub

Summary

AI & Data Science graduate with experience in **data analysis, SQL, Power BI, Python, and data validation**. Skilled in **data cleaning, EDA, dashboard development, KPI reporting**, and transforming structured and unstructured data into actionable insights. Experienced in **SQL-based data validation** across **1,000+ enterprise records** and **Power BI dashboard development** using Power Query and DAX. Published **4 IEEE papers** and **1 SSRN preprint**.

Education

VR Siddhartha Engineering College **2022 – 2026**

B.Tech in Artificial Intelligence and Data Science (CGPA: 7.55) *Andhra Pradesh, India*

Experience

Innodata India Pvt. Ltd. **June 2026 – Aug 2026**

Analyst – AI/LLM Practice *Remote*

- Worked across **large-scale multimodal datasets** spanning **text, audio, image, and video** modalities, applying **task-specific annotation guidelines** for each data type.
- Performed **data annotation, labeling, and quality assurance** on diverse AI training datasets, maintaining **high accuracy and consistency** across multiple concurrent project pipelines.
- Adapted to **different evaluation rubrics, taxonomies, and quality frameworks** per project, ensuring adherence to **data governance and compliance standards**.

UV Netware Private Limited **Mar 2026 – Apr 2026**

Database Analyst Intern *Remote*

- Designed and executed **SQL-based analytical queries** extracting insights from **1,000+ validated enterprise records**.
- Built **data validation and cleaning pipelines** ensuring accuracy in reporting workflows aligned with **data governance standards**.
- Delivered **analytics reports** supporting cross-functional operational decision-making.

Consilience Research Foundation **July 2025 – Sep 2025**

Research Intern *Remote*

- Built **reproducible data pipelines** aggregating **multi-year PM2.5 datasets (2020–2025)**; produced **seasonal trend visualizations** using Python and Pandas.
- Applied **statistical analysis** and NLP to mine **50+ policy documents**, identifying actionable research gaps.

Projects

HR Analytics Dashboard | *Power BI, Power Query, DAX – Tata Forage* **GitHub**

- Developed **interactive Power BI dashboards** analyzing workforce diversity, attrition trends, and **HR KPIs** across **500+ employee records**.
- Used **Power Query** for data transformation and **DAX** for calculated KPI metrics, enabling drill-down analysis.

Urban Heat & Air Quality Vulnerability Index | *Python, Pandas, NLP* **SSRN 2026**

- Built **5-year longitudinal data pipeline** for PM2.5 analysis; developed **composite vulnerability scoring model** for policy prioritization.

Diabetes Prediction | *Python, scikit-learn, EDA, Random Forest* **GitHub**

- Improved accuracy from **79% to 87%** via **EDA and feature engineering** on PIMA dataset with rigorous cross-validation.

CNN-Based Steganalysis & RDH Projects | *PyTorch, CNN, OpenCV* **4× IEEE Published**

- Published **3 IEEE papers in 2026** on deep learning-based image steganography and steganalysis; achieved **PSNR > 65 dB** exceeding evaluated baselines.

Technical Skills

Data & BI: SQL, Power BI, Excel, Power Query, DAX, Pandas, NumPy, Data Cleaning, Data Visualization, KPI Reporting

Programming: Python (primary), Java, C

Analytics & ML: scikit-learn, EDA, Feature Engineering, Statistical Analysis, NLP, Cross-Validation

AI & LLM: Generative AI, LLM Evaluation, RAG, LangChain, LangGraph, Prompt Engineering

Tools & Cloud: Git, Jupyter, Matplotlib, LaTeX, AWS, Google Cloud

Achievements & Certifications

AIR 1547 – TCS CodeVita (100,000+ participants) | **MSME 4.0 Hackathon** – Selected Nationally | **Theme Lead** – National AI Hackathon 2025

5 Publications: IEEE'26 Steganalysis | IEEE'26 CTP-RDH | IEEE'26 RDH | IEEE'24 RFID | SSRN'26 PM2.5
